Examines the development of the music of Johann Sebastian Bach and profiles his life

Reviews of the **The New Bach Reader: A Life of Johann Sebastian Bach in Letters and Documents** *by* Hans T. David, Arthur Mendel, Christoph Wolff

Winasana

I am a bonified Bach scholar and this book is always at my side for quick reference. It is an excellent piece of scholarship by a leading expert; nicely bound, legible, printed on very good paper. It contains many short entries: translations of all period records and writings, newspaper reports and

other documents pertaining to Bach's biography. Excellent index.

Eigeni

This is one of the best resources for reading from primary source documents about Bach that there is. There is great detail about Bach here from his contemporaries and even his kids. For anyone who is a Bach junkie, this book is a must have. It is a great book.

Геракл

This is a must read and an important baseline when beginning to read what others write about Bach and his life.

Agamaginn

Excellently organized through a conspectus that allowed me to scan down a list of all the documents and go then to the ones that were most interesting to me. The conspectus is in the same order as the book, and functions as an archival finding guide. A great reference work, very glad I have it.

Viashal

A magnificent and comprehensive survey of the Bach documents.

Runeshaper

A nice companion to his Learned Musician.

Still In Mind

incredible wealth of information and details into j s bach's life - well and clearly shown, a pleasure to read

A very interesting look at Bach's life.
