Renton Thurston's a young, 14-year-old who is tired of his monotonous life. The only thing that makes him happy is when he "lifts," an extreme form of aerial hoverboarding. His feelings of frustration come from his life of toil in his Grandfather's garage and being the son of an enigmatic yet legendary "hero." One day, a large LFO (Light Finding Operation) craft called Nirvash falls from the sky and a beautiful young girl named Eureka emerges and asks for repairs. When a smitten Renton literally falls over himself to help her, the two begin a journey that will change both of their destinies! Reprints Volumes 4-6 of the Eureka Seven manga in one collection.

Reviews of the Eureka Seven: Manga Collection 2 by Jinsei Kataoka, Kazuma Kondou

Hra

Don't overspend by buying this for \$50 dollars or more. I love the collection and the all the storylines get tied up nicely, the ending is left open ended for some sequel. But, don't overspend as this

collection does pop up for much less money. Sorry third party sellers but sometimes there is such a thing as paying too much for an item.
