Forced to disappear, the seven members of the Sisterhood, who have taken vigilante justice to a new level, must sneak back into the U.S. to help Supreme Court Chief Justice Pearl Barnes, who is being blackmailed due to her own special brand of justice. Original.

Reviews of the Hokus Pokus (The Sisterhood: Rules of the Game, Book 2) by Fern Michaels

Dainris

Fast paced and audacious, the book has engaging characters engaged in cloak and dagger adventures for other people's benefit. Some are unbelievable, others are scary, others are humorous and all make you feel good. Looking forward to the next one.

Aurizar

This was the first in the series that I read (it was on sale). I promptly went back to #1 in the series and purchased at full price. I am now at #7 (all purchased at full price) and loving the series. I just

hate when I have to leave to go to work and interrupt my reading.

Ubrise

The sisterhood stories have gotten a bit too ridiculous now. This insults my intelligence and I asked myself, "Why are you reading this?" I still read it all to see how it turned out and there are some interesting interactions among the women. However, this is like David Baldacci in a bad dream.

Soustil

I love all of the Sisterhood books. Once in awhile they may lag but not too often. I love how they get their man and away he goes.

I have read and reread this series so many times that I lose count. I also have a Kindle (the white light background and that helps me

keep up with the books. I have the whole series stored in my cloud. Whenever I want one I just go into my cloud and pick it out and

send it to my Kindle. Never have to wonder where they are. As far as I am concerned you can give the whole series 5 stars.

If you enjoy getting even and justice this is the set for you.

Fohuginn

I usually really like this author's work. However, about half way through the story, I stopped reading it. The writing seemed sophomoric and I didn't have any relationship with any of the characters.

Matty

The diverse group of high placed individuals, the Vigilantes, right wrongs and and safeguard innocent, abused women and their children.

Swiang

I started reading Fern Michaels books when I would go to the library and just pick up something.

There were only a few of the Sisterhood series on the shelves and one Brotherhood (LOL). Of course, I didn't know that the Sisterhood was actually a series. That being said, when I joined Amazon, I decided to do it the right way -- I started from "1".

The Sisterhood is amazing! How they accomplish their missions with Charles's help is pure mastery. When I've finished a book in the series, I look forward to the next one.
