As interest in spirituality and divine guidance continues to grow, more and more readers are turning to the ancient art of Tarot. A Magical Course in Tarot offers an unprecedented understanding of this mysterious art. Appealing to both novice and experienced Tarot readers, Michele Morgan's method taps into the psychic energies that are inherent in everyone. Morgan's strategy, which can be applied to any of the various Tarot decks, allows the reader to begin reading cards after the first chapter. Accompanied by 78 beautifully penned original illustrations, this guide is divided into three sections, including how to follow one's instincts, traditional and historical meanings of the cards, and a detailed analysis on the interactions among the cards.

## Reviews of the **A Magical Course in Tarot: Reading the Cards in a Whole New Way** *by* Rebecca Richards, Michele Morgan

I am a beginner in learning tarot and I have read and heard quite a few recommendations for this book. Of course, I needed to read it for myself. As I was used to reading books that just told you the meanings of the cards, this one threw me for a little loop at first. As I read more and more, I loved her way of getting the reader to use their intuition to learn the tarot. The book was very easy to read and fun. The author also did give you the meanings of each card...but at the end. I would definitely recommend this book.

Foiuost

It was an enlightening way to learn the tarot. I had been having some difficulty because all of the other instruction books were a bit too dry. A Magical Course in Tarot teaches you the tarot, but the main feel of it is that anyone can learn to read tarot... there is not an exact right way to do it. Don't worry about doing everything in a particular way. I am very happy with this book!

Burirus

As a novice, I really loves the freedom this book expresses in regards to learning the tarot. Learning 78 card meanings can be overwhelming, but Michelle Morgan believes in working with the cards intuitively for the first few months to become familiar and connect with ones own psychic abilities before starting to really study the traditional meanings of the cards. Easy read and very informative

Prorahun

Great book for beginners because its not too technical or deep, which can be overwhelming at first! Breezy read, I highly recommend! Follow with the Ultimate Guide to Tarot by Liz Dean. That book is fabulous!

digytal soul

As far as the information this book covers, it okay. There are many other books available that cover more and have more detailed information.

NiceOne

This is a easy read and I find it sticks with you. She goes over everything like wands is fire in the angel deck...etc. I also like her yes/no and timeline answers, as in the good cards are a yes and the dull bad cards are a no...makes since. Her timeline is seasons. Others you use the numbers and then have to go through 6 days 6 week etc. All in all..the information is easy to retain.

Antuiserum

I had this book on my wishlist for ages! Always another book or deck appealed to me more. I somehow thought it wad perhaps just another of those filler workbook type books you see in regards to tarot intuition. Then I saw it for \$2 and succumbed!

Why oh why did I ever wait so long?! This book is an amazing treasure, a sparkling gem of wit, wisdom, tenderness and knowledge. Michele writes in a personable and very engaging manner. I was completely enchanted and under her spell from the 1st sentence. Usually with books on Tarot (I have about a 100 or more!) I tend to jump around the book, skimming or choosing tidbits to read. With this truly magical tome though I read it cover to cover, I couldn't put it down.

Michele explains and describes the practice and art of intuition in such a way you finally "get" it and feel inspired and fired up! She weaves magic and casts a spell with her words, drawing you further into this fairytale word. She covers all the bases.

Her section on the card meanings is fantastic! Brilliant and poetic insights to each card. I am totally in love with the simply elegant yet deep drawings for each card by Rebecca. They really spark your intuition and your imagination starts going a mile a minute! I'd like to second the notion these would make an awesome and VERY readable, charming deck! I want MORE of her art!

In fact if it were a deck and book set, it'd be my #1 reccommendation to tarot beginners = ). This divinely magical book is now firmly set in my top 5 favourite books EVER about Tarot!

Thank you ever so much Michele Morgan for this gift and inspiration, it's changed how I see and use my cards!

You will in NO WAY be disappointed with this book. The faeries agree with me and are whispering to run and buy it! Best thing one could ever do in their Tarot studies.

I've read tarot for 40 years now, and this is the best book I've ever read on the subject. Clear, simple and practical- in a way it is a non-mystical guide for an intuitive process.
